Element Expands Interactive Web Department

Parker Dennis hired as web developer

DE PERE, Wis. – [Element](#), a full-service advertising and web development agency with two locations in Northeast Wisconsin, hired Parker Dennis as a web developer. With the addition of Dennis, Element now has four full-time web developers and continues to grow as a company.

Dennis graduated from Northern Michigan University with a degree in environmental studies before returning to school at Lakeshore Technical College, where he received his degree in web and software development.

As part of Element's team, Dennis will develop and code websites that offer compelling, on-brand user experiences through high-quality design and interactivity.

###

About Element

[Element](#) is a full-service integrated marketing agency with more than 80 clients in both B2B and B2C industries. Our mission is to boost our clients' bottom lines using a strategic, research-driven approach that aligns creative campaigns, digital marketing, public relations, and more to keep sales prospects on the path to purchase and engaged with a brand. We pride ourselves on honest communication with clients and our down-to-earth, "Get Real" culture. Learn more and see our work at goelement.com.
